Overlap Table Ø62 & Ø85

We have changed the construction of Overlap Table Ø62 and Ø85 to meet applicable requirements of tables (contract test: EN 581-1:2017 and EN581-3:2017). This means that the legs have been moved and the risk of tip over is low. The visual appearance of the tables is therefore different compared to the old construction. The feet go slightly beyond the table top and the tables are now flatpack. The change is from the new season and we do not replace the old tables only at compliance.

The tables are in stock in late April.

Edge Pots

Edge pots outdoor

The new Edge pots outdoor have a new glazed surface and is the same as on the red Edge pots indoor. They will be available in 4 sizes and two colours: Terracotta Red and Light Grey. The surface is easier to clean and will not peel off as we had some complaints on the old versions. The pots cannot withstand freezing temperatures and should therefore be emptied and stored in a garage, cellar or the like.

The pots are in stock in mid-March.

Messina Umbrella

We have added a new size to our Messina collection with the measurement Ø300. Furthermore the Messina Umbrella Ø210 (1910101), Messina Umbrella Ø270 (1910111) and NEW Messina Umbrella Ø300 (1910135) will be in one piece and not be divided in the middle – this is decided due to several claims.

The Messina Umbrellas are in stock.

Selandia Table Ø94

Selandia

The table height of Selandia tables have been changed to 73cm. This means that NEW Selandia Table 147 (1400517), Selandia Table 75 (1400518) og Selandia Table Ø94 (1400519) have been changed in height. The large Selandia Table is already 73cm heigh. Furthermore, there have been added braces in brass to Selandia Table 75 – just like the Selandia Table 147.

The Selandia Tables are in stock.

Stripes outdoor cushions

In connection with our new outdoor cushion and pillows we are launching a small collection of cushions and pillows in yellow/white and blue/white striped outdoor textile. The collection is limited to this season, and we offer Virkelyst, Riviera Sunbed Cushion and Barriere Pillow 50x40 in the striped textile. They have the same great features to withstand all kinds of weather. They have the same price as the other cushions and pillows and will be available in pricelists and on the website soon.

Furthermore we are working on a Barriere Cushion 125x43cm with Kapok fillings and also with stripes. It will be ready later on in the season.

A press release and insight aimed at retailers will be available within the next week.

Please notice that the striped versions will not be available for US and UK market.

The striped cushions and pillows will be available in stock in mid-April.

Jens Quistgaard

Fionia stool and Royal chair

Yesterday a press release was sent out regarding the centenary of Jens Quistgaard. Jens Quistgaard was one of the great Danish Designers and is behind many design classics and many know him for his little shark's fin can opener. Jens Quistgaard is also the designer behind Fionia Stool and Royal Chair – the Royal Chair will be a part of the collection from Autumn. Furthermore, a Fionia Stool in Hunter Green and with brass fittings will be available in a limited edition of 100 pieces.

Both products will be available in stock from 1st of September. The press release is earlier due to magazine deadlines in Spring.
